Winemaking

Picking began in late February with Cinsault and Viognier from the Riverland, followed in mid-March with Grenache and Mataro from Langhorne Creek. The parcels were cooled, destemmed and pressed straight away. The juice was cold settled, racked and inoculated two days after. Fermentation commenced and lasted 2.5 weeks. Soon after malolactic fermentation was complete. The wines were then blended together and heat and cold stabilised before being bottled in mid-April 2021. No sulphur dioxide was added at any point when making this wine.

Vintage

A moderately wet spring and early growing season meant conditions were excellent for flowering and fruit. The 2021 vintage and the later growing season was very cool and dry, which led to slower ripening over the season and low disease pressure. A slow and mild ripening period meant natural acidity, concentrated fruit flavour and fine tannins.

History

The Grenache was sourced from our Langhorne Creek vineyard where the vines are approximately 30 years old and grown on deep alluvial sandy loam. The Cinsault and Mataro are grown at Temple Bruers' Loxton and Moorook vineyard in the Riverland, where the soil is majorly sand over lime and clay. The climate in the Riverland is continental providing the Temple Bruer Vineyards with long sunny days and cooler nights. It is these long sunny days that provide the full fruit flavours you find in this Rose.
